Mathematica Policy Research: Health Analyst

Mathematica is a nationally recognized, nonpartisan firm that conducts domestic social policy research on health care, welfare, education, labor, and related topics. Mathematica's mission is to improve public wellbeing by bringing the highest standards of quality, objectivity, and excellence to bear in our work for our clients which include federal, state, and local government agencies, and private foundations.

Health Analyst
Health analyst to join us in conducting significant studies in health policy. The analyst will be based in Oakland, CA, but will work with colleagues throughout the company's six offices. Mathematica's current work includes research related to the implementation of the Affordable Care Act and Medicaid expansion, reforming provider payment and service delivery models (such as patient-centered medical homes and accountable care organizations), measuring the quality and effectiveness of health care, uses of health information technology, and chronic disease prevention and health promotion programs.

As a health analyst, you would join our staff of approximately 70 health research professionals, which includes doctoral level (Ph.D., D.Sc., or Dr.P.H.) and physician researchers in the fields of public health, public policy, behavioral or social sciences, and economics, as well as MPH and other master's-level analysts. We offer our employees a stimulating team-oriented work environment, competitive salaries, and a comprehensive benefits package, as well as the advantages of employee ownership.

Responsibilities
